The image shows a map of the Eugene-Springfield Metro Area with various transportation projects and intersections marked. The map is used to illustrate the general location of programmed and unprogrammed projects contained in the Capital Investment Actions Roadway Projects list. These projects are considered necessary to adequately meet regional transportation needs for the TransPlan 20-year planning horizon and are part of the financially constrained plan. Jurisdictions responsible for these projects are the Cities of Eugene and Springfield, Lane County, and the Oregon Department of Transportation.

Legend:
- Urban Growth Boundary
- Programmed Intersections
  - Added Fay Lane/Major interchange improvements
  - Arterial capacity improvements
  - Study
- Unprogrammed Intersections
  - New arterial link or interchange
  - Added Fay Lane/Major interchange improvements
  - Arterial capacity improvements
  - Study
- Programmed Projects
  - New arterial link or interchange
  - Added Fay Lane/Major interchange improvements
  - Arterial capacity improvements
  - Urban standards
  - Study
- Unprogrammed Projects
  - New arterial link or interchange
  - Added Fay Lane/Major interchange improvements
  - Arterial capacity improvements
  - New Collectors
  - Study
  - Urban standards
  - Nodal Development Areas

Note: This map is illustrative and should be used for reference only. The map depicts approximate locations of existing and proposed transportation facilities.

Areas identified as nodal development areas are considered to have potential for this type of land use pattern. Other areas not designated for nodal development may be found to have potential for nodal development.
